

**LUCY V. CANTÚ**  
Soul Wake-Up Coach  
Spiritual Teacher  
Speaker

In 2001, with only “a call in her heart” and no prior business experience, Lucy V. Cantú began a bilingual training and development company to empower “at-risk” families with knowledge and leadership skills.

Lucy became a speaker in the process of being a mother and school volunteer. Years ago, after experiencing a mystical wake up call, she put her career on hold to raise her family. The poignant experience called to take the higher, profound path of intuition, wisdom & spirituality. Later, as a school volunteer, she discerned another call to motivate parents to help their children succeed. In the process of all her experiences, she surmounted limiting beliefs and discovered a passion for inspiring others to reach their greater potential. Her pursuits and diverse life & career experiences, including poverty as a child, landed her in the field of personal and spiritual development.

Ever the trailblazer, Lucy has presented to hundreds of school districts, community & business organizations, and at regional, state, and national conferences around the country, including National Title I, National PTA, and Texas Association for Bilingual Education. Lucy has blogged and hosted her own radio program in both English and Spanish.

Although, everything she’s ever created has been in both English and Spanish, her passion is speaking and teaching about the wise, universal and most important “Language of the Heart.” Most recently, she’s created an intuitive tool to awaken and engage women to their inner wisdom. Her goal is to publish this tool, as well as her book, which she is currently writing. She is also the creator of *Feminine Fierce* services to empower women.

Today, Lucy is on a mission is to inspire, coach, and lead women forward to live true to their Soul’s call and reap increased confidence, creativity, love, deeper fulfillment and happiness. She delivers practical wisdom and life-enhancing lessons in a down-to-earth style, laced with laughter and grace.

With her husband of over 30 years, Lucy proudly shares the parental success they have achieved: one daughter graduated from UT Austin and her youngest is currently studying at UNT, their alma mater!
